Industrial Services

About Us

Red Dot is an industrial service provider in the Kingdom of Saudi Arabia from the past decade with an ever-growing list of satisfied clients. Red Dot was established in the year 2007 and offers a range of services and solutions for various technical and commercial activities. The core of Red Dot's philosophy is its commitment to providing top quality services

The main focus of Red Dot is to provide highest quality of industrial services to various industry in Oil & Gas, Construction, Petrochemicals, etc. for shutdown of new and existing projects. At Red Dot, we passionately believe that every company has different needs. We therefore treat each project on an individual basis, with the overall objective of adding value to our client's business. Our continuous pursuit for recognition and devoted customer service during the past decade has secured the confidence and appreciation of our clients. Our TEAM of highly qualified and experienced individuals are the real asset of our company.

Our Values

Honest & Commitment

The core value of our company is to build a relationship based on Trust, Honesty and Commitment. There will be no activity held without consideration of these values. We highly respect our Client's confidence in us and hence, we strive hard to fulfill all the commitments made to our Client.

Our Vision

We always strive to be known for the quality and efficiency of our services. We also desire to be able to contribute towards economic and community development in the countries and areas we operate.

EHSS Values

The management of Red Dot is committed to achieve and exceed total satisfaction of customers through:

- Continuous improvement of our processes, systems, technology and operational effectiveness.
- Implementation of regular training programs to promote skill development of all employees.
- Achievement of superior quality through regular review and improvement of our quality policy, objectives and quality management systems.

Towards achieving the above, the company management will demonstrate involvement and leadership in the affairs concerning quality and provide all the resources needed to ensure that the policy is well comprehended and conceived throughout the organization.

EHSS Policy

We work safely in a manner that protects and promotes the health and well-being of the individual and the environment.

EHSS Principles

It is Red Dot's policy to operate worldwide in a safe, responsible manner which respects the environment and the health of our employees, our customers and the communities where we operate. We will not compromise environmental impacts in all areas of our operations. All our team members are expected to understand, promote and assist in the implementation of this policy and the accompanying principles.

Quality Policy

- To comply fully with the laws and regulations of the country we operate in and health & environmental stipulations as specified by our Client's.
- To create and maintain a safe and secure working environment and prevent workplace injuries, illness and violence.
- To implement and continuously improve our EHS systems, policy and programs through company strategies and action plans, through visible management commitment & individual contribution of all staff and employees, supported by monitoring, training, motivation & promotion.
- To ensure availability of effective crisis management and emergency response capabilities to respond to incidents and / or emergency situations at all places concerning our area of operation.

Services

Hydro Jetting :

Hydro jetting is a widely-used method or process to remove coating materials, accumulated contamination and dirt buildup on surfaces as well as blockages on pipes using high-velocity water pressure through a jet nozzle.

At Red Dot , we perform high pressure water jetting services with various capacities in cleaning of stationary equipment like Exchangers, Columns, Vessels, Towers, Storage Tanks, Fin fans, associated pipelines, piping etc. in a professional and safe manner.

Bolt Torqueing :

At Red Dot we provide a total solution for all of your bolting requirements utilizing the latest technology to drive the highest standard of service. Our specialists also offer complete project management of all bolting requirements from start to finish,

including the design of tightening procedures, advice on preferred equipment to be utilized, on the job installation and tightening, and post job reporting. Our highly skilled technicians use their in-depth technical knowledge and best industry practices to ensure accurate bolt loading is achieved. We pride ourselves on the belief that our hydraulic torque equipment is the safest and most advanced equipment used within the service industry.

Tensioning :

It is the fastest and most accurate method of controlled bolt tightening currently in the industry. Bolt tensioning enables a direct load to be applied evenly across all bolts. With our investment in the latest tensioning technologies we have the capability to carry out applications previously inaccessible to older tooling. Our engineering and support team ensures our technicians have the right tool for every application.

Chemical Cleaning :

We provide professional chemical cleaning services to all segments of the industry. Each project is unique, and our team provide tailored solutions to meet the needs of even the most challenging projects. Both reactive and non-reactive chemistry is used in a wide range of application methods; fill and soak, circulation, rotating nozzles, foam, vapor phase, and on-line cleaning.

Sand Blasting :

We offer quality abrasive sandblasting services designed to meet your needs. Sandblasting is the process of smoothing, supply dry and mist sand blasting and shot blasting services for dust sensitive areas.

It can be used for cleaning and refurbishing anything from commercial to industrial equipment's. Abrasive cleaning is a method of cleaning mainly used on various types of metals and stone works and is very effective as it can remove tough stubborn staining such as rust and also multiple layers of paint. We are experts in industrial cleaning and all areas of abrasive cleaning including chalk, shot & mist blasting and are capable of cleaning metal surfaces. We can take on your project from start to finish without the worry of re-occurring surface contamination.

Mechanical Works :

To support our Clients, we also undertake various kinds of Mechanical Works.
